Students will choose classes from the following categories:

Historical Context-3 credits  
Human Diversity-3 credits  
Ideals & Values-3 credits  
US Context-3 credits

Natural Science-6 credits  
Literature & Arts (lower division)-3 credits

## Non-Business Electives

---

Leeds students are required to take 17 credits of non-business electives. If you have any MAPS deficiencies, the required MAPS classes typically count as non-business electives. In general, some electives that business students will find helpful for their future career include classes in economics, technology, programming, math, communication and writing. Classes that involve numerical and statistical analysis will be especially helpful for business decision making. Although you can choose to take any non-business electives that interest you as long as you meet the prerequisites, we strongly encourage you to use your electives in a purposeful way that will help you to customize your program.

### Consider these options (some classes have prerequisites):
